

CHEMICAL PRODUCTS FOR MORTAR

PRODUCT	MAIN USE	SOLIDS(%)	pH	FEATURE & ADVANTAGE
PLUS MS-P Melamine Sulfonate- Powder	Water reduction & Super plasticizer	92%	8,0 - 10,0	Good water reduction and super plasticizer
PLUS NS-P Naphthalene Sulfonate- Powder	Water reduction & Super plasticizer	92%	7,0 - 10,0	Good water reduction and super plasticizer
CEMESTE P-97H	Water reduction & Super plasticizer	100%	4,0 - 6,0	High flow/ High water reduction Excellent self-leveling performance Good workability by prolonging retention time No-hygroscopic property for long time storage Good pump-ability by high fluidity Eco friendly product (No formaldehyde)
CEMESTE P-98W	Water reduction & Super plasticizer	100%	3,6 - 5,6	High flow/ High water reduction Excellent self-leveling performance Good workability by prolonging retention time No-hygroscopic property for long time storage Good pump-ability by high fluidity Eco friendly product (No formaldehyde)
