

POWDER DEFOAMING AGENTS

PRODUCT	MAIN USE	pH	FEATURE & ADVANTAGE
SN - DEFOAMER 14 HP	Defoaming agent	10,0 - 12,0	Excellent self-leveling performance Specialized in anti-foaming performance Good compatibility with other materials Superior finishing on mortar and concrete surface Prevent excessive shrinkage and porosity Improved impermeability
HS - PDF - 54	Defoaming agent	9,0 - 12,0	Specialized in anti-foaming performance Good compatibility with other materials Superior finishing on mortar surface Prevent excessive shrinkage and porosity Improved impermeability
HS - PDF - 57	Defoaming agent	9	Specialized in anti-foaming performance Good compatibility with other materials Superior finishing on mortar surface Prevent excessive shrinkage and porosity Improved impermeability Strong defoaming performance and cost-effective
NOPCO PD #1	Defoaming agent	8,6	Good compatibility with other materials Superior finishing on mortar surface Prevent excessive shrinkage and porosity Improved impermeability
